

VANTAGE - the complete transfer pricing software solution

Introduction

“In the next 2 years, 50% of transfer pricing will be software driven”

In a recent survey of in-house tax professionals from leading global multinationals, in their opinion, transfer pricing software packages fall short in one or more of the following areas:

- Confused products which claims to substitute a trained transfer pricing professional, delivery planning, compliance and defense (audit) capabilities
- Country specific software, with no real ability to perform regional or global studies
- Inadequate technical transfer pricing support offered by poorly trained professionals
- No implementation capabilities for internal purposes

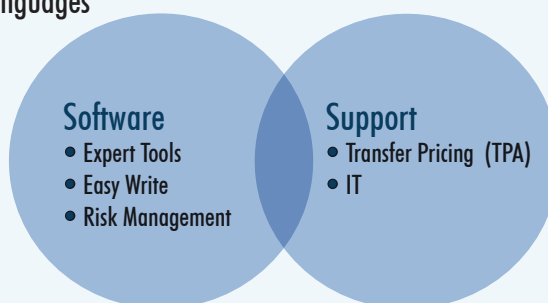

In response to the input of in-house practitioners, Transfer Pricing Associates has developed a transfer pricing software package called VANTAGE.

What is VANTAGE?

VANTAGE offers a complete transfer pricing compliance software package for any multinational looking to migrate the management of their transfer pricing activities in-house.

VANTAGE allows multinationals (MNEs) to:

- Create and maintain their own transfer pricing systems
- Respond to increasing demand for cost savings and independence
- To cover non-English speaking regions such as China (Simplified Chinese) with options to expand into other regions and languages

Functionality	Support Package
<ul style="list-style-type: none"> • Export Tools – ‘best practice’ transfer pricing tools and references • EasyWrite – word based templates in line with the latest OECD, EU, SAT and USA PATA practices • Risk Management – control framework to assess existing business risks and to extract and assess quantitative data on inter-company transactions 	<ul style="list-style-type: none"> • Primary Care – initial training and tailoring of the VANTAGE software for your company • Ongoing Care – technical support including eLearning solutions • IT Support – ensure seamless integration on implementation and assist with ongoing upgrades

VANTAGE - the complete transfer pricing software solution

The (Ad)Vantages

VANTAGE will deliver the following benefits:

- Significantly reduces production time for a masterfile
- Reduces cost of Transfer Pricing with outside consultants
- Allows global transfer pricing risk to be managed in a structured way
- Compatibility with existing best practices and existing masterfiles
